

ECTMIH Side Event of Medicus Mundi Switzerland
Swiss Health NGOs for
Implementation Research

Basel, 9 September 2015, 10.30–12.00 h, Congress Center, Room Kairo 2

ECTMIH Side Event of Medicus Mundi Switzerland Swiss Health NGOs for Implementation Research

Basel, 9 September 2015, 10.30 – 12.00 h, Congress Center, Room Kairo 2

There is a strong call within the international health cooperation to transform evidence-based research into policy and action. Implementation research is often driven by the scientific community. But NGOs want to strengthen applied research in their projects and programmes according to their own needs. This will create applied knowledge and evidence for the scaling up of successful NGO interventions.

With a key note of **John Reeder** (Director, Special Programme for Research & Training in Tropical Diseases, World Health Organization, Geneva) and inputs of **Jochen Ehmer** (SolidarMed), **Nicole Moran** (Consultant), **Ingrid Mason** (FAIRMED), **Thomas Schwarz** (Medicus Mundi International), **Susanna Hausmann** (Agency for Swiss Development Cooperation), **Kaspar Wyss** (Swiss TPH) and **Thomas Gass** (Swiss Red Cross).

Medicus Mundi Switzerland in cooperation with FAIRMED, Swiss Red Cross and SolidarMed
